

BYJU'S Strengthens ERP Operations with SAVIC MAXCare on SAP Cloud ERP Private

India’s largest edtech firm, BYJU’S, has selected SAVIC’s MAXCare Managed Services to support and enhance its Rise with SAP S/4HANA ERP platform, ensuring seamless scalability and performance across key business processes.

Before: Challenges and Opportunities

- High volume digital operations requiring 24x7 ERP uptime
- Agility needed in business planning and financial decision-making
- Technical extensibility and system innovation alignment

Why SAP and SAVIC Technologies ?

- SAVIC’s MAXCare model ensures proactive monitoring and advisory
- Support for SAP BTP and business planning systems
- Real-time issue resolution and continuous enhancements

After Value-Driven Results

- 136 FUEs managed under scalable ERP support
- Optimized planning and financial controls
- Improved uptime, compliance, and analytics visibility
- Future-ready platform supporting educational expansion

“SAVIC’s MAXCare support on SAP Cloud ERP Private helped us scale our digital learning operations seamlessly. With 24x7 monitoring, real-time planning, and robust analytics, we improved uptime, financial control, and positioned our platform for future educational growth.”
