Building Superior Homes for the Residents of India with SAP S/4HANA

Leading real estate enterprise **Casagrand Builders** has developed over 9 million square feet of prime residential projects across India. To accommodate its growing business, Casagrand partnered with SAVIC Technologies to adopt SAP S/4HANA. Now, an intelligent, standardized system provides better visibility.

75%
Budget-control improvements on projects

100%
System-based approvals & budget -based procurement

Faster
User adoption self-service reporting

Reduced
Data processing time

"With SAP S/4HANA, we've reached next-level digitalization and transformation. We are able to quickly process massive amounts of data, reduce processing time & improve profitability – helping us run even better."

MR. PARDHA SARADHI, CHIEF FINANCIAL OFFICER (CFO), Waycool foods & products Pvt. ltd.
