

Changing the Engineering Industrie with SAP® S/4HANA

Glass Wall Systems (I) Pvt Ltd is India's leading facade fabricator. We provide turnkey architectural facade solutions where we translate the vision of our clients into reality. Our Design, Manufacturing and Project Management facilities are amongst the best in the country. With the help of SAVIC Technologies, we were able to have end to end visibility of all our ongoing projects with SAP S/4HANA.

Before: Challenges and Opportunities

- ✓ Tracking of projects profitability and capturing of all costs against project
- ✓ Identify high-risk projects and close monitoring of such projects on all fronts of time, cost & scope.
- ✓ Minimizing the Sales Outstanding and the Day Purchase Outstanding health of the organization.
- ✓ Tracking Production capacities to ensure no bottleneck in deliveries

Why SAP and SAVIC Technologies Private Limited

- ✓ Role- and authorization-based real-time data to accelerate decision making and the overall planning process
- ✓ Automated processes with quick and ready access using SAP Fiori

After: Value-Driven Results

- ✓ Run as a live business on SAP S/4 HANA for end to end supply chain visibility and fully integrated processes
- ✓ Realize value through capabilities such as project costing, inventory tracking logistics and finance – with existing solution.
- ✓ End to end project visibility on all fronts
- ✓ Eliminates data inconsistencies, boosting the accuracy of information for decision makers.

>50%

Potential savings in building time & costing

60%

Posting of hours to a project which took 2-3 weeks previously

60%

Better Reporting performance

Greater

Transparency into project status and progress

“With SAP S/4HANA our processes are more streamlined and integrated. I have greater visibility of all sectors for my business.”
