

Empowering KD Industries Inc. with SAP Cloud ERP

SAVIC is providing SAP Cloud ERP for KD Industries Inc. across two manufacturing plants located in Dubai, UAE, and the USA. The project drives efficiency through automation and enhances operational excellence by covering Finance, Procurement, Sales, Manufacturing, Quality, Asset Management, and Supply Chain processes.

Before: Challenges and Opportunities

- Manual and fragmented procurement and finance workflows
- Lack of real-time inventory tracking and MRP optimization
- Operational delays due to disconnected systems

Why SAP and SAVIC Technologies ?

- Proven SAP Cloud ERP implementation expertise from SAVIC
- End-to-end process automation across Finance, Procurement, Manufacturing, and Sales
- Scalable architecture for long-term growth

After Value-Driven Results

- 60% automation of purchasing processes
- 50% reduction in manual payment processing time
- 80% more time for data analysis and strategic decision-making
- Improved MRP efficiency and reduced inventory turnover
- Increased customer satisfaction through improved delivery performance

“With SAVIC’s rapid deployment expertise and SAP S/4HANA Public Cloud, we seamlessly transformed our global manufacturing operations. The solution automated 60% of our purchasing, reduced payment processing time by 50%, and gave us 80% more time to analyze operational data—resulting in optimized inventory turnover and enhanced customer satisfaction.”
