

Neogen Chemicals Partners with SAVIC MAXCare for SAP Cloud ERP Private

Neogen Chemicals Ltd., a pioneer in specialty chemicals, partnered with SAVIC for MAXCare Managed Services to maintain and enhance its SAP Cloud ERP Private environment, enabling end-to-end process optimization in a regulated manufacturing context.

Before: Challenges and Opportunities

- Maintaining operational compliance in a regulated chemical sector
- Need for consistent technical support and process stability
- Demand for proactive issue resolution and ERP enhancement

Why SAP and SAVIC Technologies Private Limited

- Proven SAP S/4HANA support capabilities with industry-specific focus
- MAXCare framework offering 24x7 incident resolution
- Expertise in SAP ERP for chemical compliance, quality, and manufacturing

After Value-Driven Results

- High system uptime and business continuity
- Streamlined operations across Finance, Procurement, and Manufacturing
- Regulatory-ready ERP environment with quality management
- Continuous enhancement aligned to SAP roadmap

“SAVIC’s MAXCare on SAP Cloud ERP Private enabled us to maintain compliance, ensure high uptime, and streamline operations across our regulated manufacturing processes. The 24x7 support and industry-specific expertise helped us optimize performance while staying aligned with SAP’s innovation roadmap.”
