

# Enabling Growth for Nilons Enterprises Pvt. Ltd. with SAP Cloud ERP

SAVIC implemented SAP Cloud ERP for Nilons Enterprises Pvt. Ltd., transforming its nationwide food processing operations. The implementation covered Finance, Controlling, Procurement, Sales & Distribution, Manufacturing, Supply Chain, and Quality, with integrations including Botree, Barcodes, and E-Invoicing.

### Before: Challenges and Opportunities

- Disconnected systems across finance, manufacturing, and sales
- Inventory visibility issues with over 1300 SKUs
- Manual processes impacting operational speed
- Limited analytics for planning and decision making

### Why SAP and SAVIC Technologies Private Limited

- Proven expertise in FMCG and Food Processing by SAVIC
- Rapid, integrated deployment with SAP Activate Methodology
- End-to-end business process coverage

### After Value-Driven Results

- 60% automation of procurement workflows
- 50% reduction in manual financial processing
- 80% more time dedicated to strategic planning and growth
- Better inventory visibility across 5 warehouses
- Improved customer service for 107 super stockists and export partners

“Partnering with SAVIC and SAP Cloud ERP revolutionized our nationwide food processing operations. We achieved 60% automation in procurement workflows, reduced manual financial processing by 50%, and gained 80% more time for planning and growth. The system improved inventory visibility across five warehouses and enhanced customer service for over 100 distribution partners, empowering us with data-driven decision-making and operational agility.”
