Pearl Alloy Journey Video

How **Pearl Alloys** to be the No.1 supplier of Aluminum ingots in the world in terms of Turnover, Tonnage, Quality, Customer and Employee Satisfaction with Rise with **SAP S/4HANA**

The project objective included the identification of SAP S4HANA as an effective IT tool which will serve its needs related to systems and processes with the solution Finance, Controlling, Inventory, Materials Management, Sales and Distribution, Production Planning , Quality Management, and Plant Maintenance. It also includes FICO MM SD PS PM DMS, Fiori ABAP. Having Approx. 2 Entities and 6 Plants under PearlGroup.

Before: Challenges and Opportunities

- To overcome the challenge of complex and fragmented processes to achieve seamless operations.
- To integrate various systems and functions to support its rapid growth and avoid inefficiencies.
- To improve operational efficiency and optimize resource allocation.
- Will enable for better data visibility and real-time insights, leading to informed decision-making.
- Achieve end-to-end process integration and holistic management of its operations.

Why SAP and SAVIC Technologies?

- By centralizing data management, SAP software **provides multiple business functions with a single view of the truth**. This helps companies better manage complex business processes by giving employees of different departments easy access to real-time insights across the enterprise.
- SAVIC has a strong leadership commitment to providing a high number of S/4HANA implementations in India, with notable clients such as Noble Hygiene, Tata Tele, Millennium, L&T and Everest. SAVIC also have a Local Skills Factory that provides flexibility in expanding skills quickly, and they are an SAP Platinum Partner with CMMi Level 5 and ISO 9001:2015 certifications. SAVIC also offers local presence and support.

After Value-Driven Results

- Integration of all company processes onto a single, more transparent data platform.
- Streamlined operations through process automation and cutting-edge analytical tools.
- Scalability for future growth.
- Synergies with international partners also running SAP solutions
