Ramachandran Retail's Digital Shift with SAP ERP Private and IS Retail

SAVIC delivered a Greenfield Rise with SAP S/4HANA IS Retail implementation for Ramachandran Retail, migrating from Microsoft Dynamics to a modern, scalable retail ERP platform. The solution spans Finance, Procurement, Sales, and Supply Chain—optimized for high-volume retail.

Before: Challenges and Opportunities
- Disconnected systems for inventory and pricing
- Lack of real-time integration with POS and compliance systems
- Manual processes across stores and warehouses

Why SAP and SAVIC Technologies ?
- IS Retail with SAP ERP Private (RISE with SAP) built for retail scalability
- Integrated with ZAKYA POS and GST-compliant platforms like Cygnet
- 500,000+ articles managed across 12 stores and 3 warehouses
- Built using SAP Activate Methodology

After Value-Driven Results
- Real-time pricing, inventory, and tax automation
- Streamlined POS and warehouse operations
- Enhanced agility, compliance, and customer responsiveness

"SAVIC's expertise in SAP S/4HANA PCE and their structured deployment approach helped us unify and digitize our core operations across manufacturing and finance. The end-to-end integration, real-time visibility, and compliance-ready platform now empower us to scale confidently and support long-term business growth."
