

# RRPCL: Making It Easier to Collect Data and Complete Forms from the Field

The Ratnagiri Refinery & Petrochemicals Ltd. (RRPCL) is a project of great national importance which provides for the future energy security. The project promoters are presently the three major public Sector Oil companies namely Indian Oil Corporation Ltd., Bharat Petroleum Corporation Ltd. and Hindustan Petroleum Corporation Ltd.

## Before: Challenges and Opportunities

- Provide users with tools to execute and maintain a reliable and systematic process for risk detection, audits, and checklists on any strategic planning or management system Unavailability of Variant/Filter criteria Save feature (reloads from null filters when refreshed).
- Use SAP® software to synchronize information in areas without an Internet connection.
- Tracking Production capacities to ensure no bottleneck in deliveries

## Why SAP and SAVIC Technologies Private Limited

- SAP Cloud Platform, which can be used to build applications in the cloud with application services and database services.
- eliminating the need for maintenance infrastructure and support.
- Using SAP Cloud Platform Mobile Services, which are designed to support SAP Fiori® apps and custom apps based on the SAP Fiori user experience offering full offline functionality

## After: Value-Driven Results

- Simpler, more user-friendly creation of custom forms.
- Ability to work in remote locations without Internet connectivity
- Availability of a reliable log, allowing photos and geolocation to be recorded as evidence by device's camera and GPS.

**Accessible**

Across devices

**Available**

On- and offline

**In-field**

Data collection
