

# Empowering Growth at SKS Fasteners Ltd. with SAP S/4HANA Public Cloud

SAVIC is implementing SAP S/4HANA Public Cloud for SKS Fasteners Ltd. across four manufacturing plants in Pune, India, and the USA, with a Go-Live planned for July 2025 over a 5-month duration. The implementation scope includes Finance, Treasury, Procurement, Sales, Manufacturing, Quality, Asset Management, and Supply Chain, integrated through SAP BTP with Barcode, Bank, and Machine Integrations.

### Before: Challenges and Opportunities

- Manual, fragmented procurement and finance processes
- Lack of real-time visibility across manufacturing plants
- Disconnected systems causing operational inefficiencies
- Legacy software limiting scaling and MRP efficiency

### Why SAP and SAVIC Technologies Private Limited

- Proven expertise of SAVIC in manufacturing sector implementations
- SAP S/4HANA Public Cloud with SAP BTP Integration Suite for advanced automation
- Barcode, Bank, and Machine Integrations through SAP Business Application Studio
- Rapid implementation for timely ROI

### After Value-Driven Results

- 60% automation of purchasing processes
- 50% reduction in manual payment processing time
- 80% more time for data analysis and strategic planning
- Improved MRP efficiency and reduced inventory turnover
- Enhanced customer satisfaction through better order fulfillment

“SAVIC’s expertise in manufacturing sector automation and SAP S/4HANA Public Cloud helped us transform operations across our plants in India and the USA. Within just 5 months, we achieved 60% automation in purchasing, reduced manual payment processing time by 50%, and gained 80% more time for strategic analysis. The integrated platform enhanced our MRP efficiency, streamlined processes, and paved the way for scalable growth and faster ROI.”
