STTelemedia Global Data Centres Transforms Operations and Enhances Global Service Delivery with SAVIC Technologies and SAP Solutions.

STTelemedia Global Data Centres India Pvt. Ltd. is part of a global group with multiple data centers serving the Enterprise market in the Indian subcontinent. They have subsidiaries in Singapore, India, UK, Indonesia, Korea and Japan, with associate and joint-venture companies in China, Thailand and Philippines.

Before: Challenges and Opportunities
- Complex operations across multiple regions.
- Compliance and security concerns in data operations.
- Standardization of operations via unified ERP systems.
- Improved strategic decision-making through enhanced data analytics.
- Scalable infrastructure to support growth.
- Strengthened compliance and security measures.

Why SAP and SAVIC Technologies?
- SAP is known for its powerful, integrated ERP solutions, SAP could offer the scalability and robustness required by a global data center operator.
- As a partner with a worldwide presence, SAVIC could support STTelemedia's global operations effectively.
- Continuous support was crucial for operations requiring high uptime, and SAVIC's MaxCare service provided this around the clock.

After Value-Driven Results
- Streamlined operations reduced management time and costs.
- Access to real-time data and analytics improved responsiveness to market changes.
- Easier expansion and addition of new services supported by SAP's scalable ERP solutions.
- Enhanced system integration improved compliance management and security enforcement.

The system's scalability and real-time analytics have greatly enhanced our decision-making and operational efficiency. SAVIC's 24/7 MaxCare support ensures our data centers operate smoothly, providing reliability essential to our success. This partnership has positioned us for future growth and improved service delivery.

Milind Kulkarni, Head of IT, STTelemedia Global Data Centres
