

Changing the Construction industry with SAP® S/4HANA

VASCON Engineering Ltd is an organization with a legacy of over three decades and an experience that encompasses hundreds of projects in the commercial, industrial and residential space. With the help of SAVIC Technologies, we were able to track our deployed assets and calculate the profit generated using SAP S/4HANA.

60%

Better Reporting performance

>50%

Potential savings in building time & costing

60%

Posting of hours to a project which took 2-3 weeks previously

Greater

Transparency into project status & progress

“With SAP S/4HANA, we’ve reached next-level digitalization & transformation Also SAP Success Factors solutions have simplified our processes and helped us pursue our growth strategy in an efficient, systemic manner.”

MR. KRISHNAMURTHY, CFO, VASCON Engineering Ltd., India.
